

CONTAINERIZED SYSTEMS

AQUALINE Reverse Osmosis Systems can be delivered completely in one or more containers, depending on the capacity of system.

CONTAINERIZED SYSTEMS

AQUALINE is a leading manufacturer and wholesale distributor of Reverse Osmosis Systems which are used to purify water by removing salts, contaminants and rejecting bacteria, sugars and proteins. The brackish water system can be designed to treat a wide variety of waters – rivers, lakes, wells; the sea water system can desalinate both deep sea and beach well waters. AQUALINE's standard Reverse Osmosis Systems are in the range of 1 m³/hour and 100 m³/hour; however, our engineers are capable of manufacturing custom designed Reverse Osmosis Systems to fit customer's water application needs; our last special project which is GASKI TURKEY (Gaziantep Water and Sewerage Administration) about 900 m³/hour Reverse Osmosis Drinking Water System Plant can be representative for our custom designs.

AQUALINE Reverse Osmosis Systems can be delivered completely in one or more containers, depending on the capacity of system. According to the requirements of the end-user, the container may come with the thermal insulation, sound proof and air conditioning.

In AQUALINE's facility, Quality Management System and Environmental Management Systems are implemented. In addition, our company has Service Certificate in the areas of repair, maintenance, service and installation. AQUALINE has excellent experience, having executed a lot of successful projects in the international market.

CONTAINER REVERSE OSMOSIS SYSTEMS

AQUALINE Water Treatment Company providing a high quality water treatment system with cutting-edge technology and top-of-the-line equipment to exceed the newly developing requirements of the industry products have earned an industry-wide reputation in the world and is existing within the structure of Pollet Water Group, which has been supplying both component parts and complete systems to companies specializing in the field of water treatment throughout Europe, Africa and the Middle East, since 2003.
